

OUR VISION FOR PASS-A-GRILLE...

In a few words, how would you describe the vision of Pass-a-Grille?

- Value our history, reflect eclectic and individuality and not legislate personal property rentals so as to create sure hardship and deter tourists who prefer staying in small properties to experience our communities
- Preserve the beachy charm and character of PAG, Encourage well-maintained landscaping, community pride and pride of ownership
- Preservation - saving what we are so fortunate to still have - keep our historic Washingtonian palms - replace as needed!
- Maintain the unique environment we currently have with a defined direction for future growth and enhancements
- Preserve our sense of community by making it easy for neighbors to see each other (good sidewalks, 8th Ave ped. only, plaza open from vendors more) and enjoy beach life. Light, lush landscape, pretty beachy codes all help to do that. Improvement of corner of 21st and PAG would help. Could be more of a plaza or community gathering space if it had benches and were more attractive
- Making an accessible piece of paradise!
- Quaint, beachy, with some quirky touches. Keep it safe for walkers and kids. Keep all beach areas accessible
- Artsy
