PAYMENT

Payment shall be made to the Contractor for work performed under this Contract for the quantities of work as determined in accordance with Payments for Work Completed and Payments Withheld of this Contract. Payment for extra work will be made in accordance with the Changes in Work, Contract Amount, and Contract Time sections below.

CHANGES IN THE WORK

Without invalidating the Contract, the City may, at any time or from time to time, order additions, deletions or revisions in the work authorized by written Change Orders or directives. The City may issue work on multiple work orders pending funding availability. Upon receipt of a Change Order, the Contractor will proceed with the work involved. All such work shall be executed under the applicable conditions of the Contract documents. If any Change Order causes an increase or decrease in the Contract Amount or any extension or shortening of the Contract Time, an equitable adjustment will be made.

Additional Work performed by the Contractor without authorization of a Change Order will not entitle them to an increase in the Contract Amount or any extension of the Contract Time, except in the case of an emergency (subject to approval by City Manager or designee).

It is the Contractor's responsibility to notify their Surety of any changes affecting the general scope of the Work or change of the Contract Amount and the amount of the applicable bonds shall be adjusted accordingly, and an amended bond document furnished to the City. In the event the City directs the Contractor to make a change in the Work, and if the City and the Contractor do not arrive at a mutually acceptable increase or decrease in the Contract Amount, the contractor shall not use any such lack of mutual acceptance as a basis or cause to stop or otherwise delay the progress or the execution and completion of any of the work ordered, directed or required pursuant to the Contract Documents.

If the Contractor believes an event or situation has occurred which justifies a change in the Contract Amount or Contract Time, he shall deliver a written notice to the City Manager or designee. Each such written notice shall be delivered promptly and no later than fifteen (15) business days after the Contractor first discovered the occurrence. The Contractor shall be deemed to have waived the right to collect any and all costs incurred more than fifteen (15) business days prior to the date of delivery of the written notice, and shall be deemed to have waived the right to seek an extension of the Contract Time with respect to any delay in the Progress Schedule which accrued more than fifteen (15) business days prior to the date of delivery of the written notice.

Any such notice shall include sufficient detail to explain the basis of entitlement to a claim for an adjustment to the Contract Amount or Contract Time. When requested by the City Manager or designee, the Contractor shall furnish any additional information and details as may be required to determine the facts or allegations involved, which shall be provided within fifteen (15) business days of the request unless a longer time period is allowed by the City Manager or designee.

The Contractor shall prepare bids detailing proposed adjustments to Contract Amount and/or Contract Time and submit them to the City Manager or designee within fifteen (15) business days of the City's issuance of a proposed Change Order or the Contractor's submitting a written notice of a change or claim for an adjustment to the Contract Amount or Contract Time. Contractor's bids shall be irrevocable for a period of at least sixty (60) business days after receipt by the City. Any delay in the submittal of a complete, adequate and acceptable bid will not justify an increase in Contract Amount or Contract Time. Contractor agrees that it shall give the City access to any and all of Contractor's and Subcontractors' books, records and other materials relating to proposed Change Orders and other claims for adjustment to Contract Amount

or Contract Time.

CHANGE OF CONTRACT AMOUNT

The Contract Amount constitutes the total compensation payable to the Contractor for performing the Work. All duties, responsibilities and obligations assigned to or undertaken by the Contractor shall be at his expense without change in the Contract Amount. The Contract Amount may only be changed by written Change Order issued by the City. Any claim for an increase in the Contract Amount shall be in writing and delivered to the City Manager or designee within fifteen (15) business days of the occurrence of the event giving rise to the claim.

All claims for adjustment in the Contract Amount shall be determined by the City Manager or designee. However, no claim for an adjustment to the Contract Amount will be considered for unforeseeable causes that were beyond the fault or negligence of the Contractor or his Subcontractors or supplier such as acts of God, floods, riots, etc. This restriction does not restrict submission of claims for additional Contract Time due to events of this nature. Any change in the Contract Amount shall be incorporated in a Change Order.

Contractor bids or claims shall cover all aspects of the Work involved and shall be fully documented and itemized as to all costs, quantities and charges for overhead and profit. Amounts for Subcontractors or Suppliers at any tier shall be similarly supported. When determining Subcontractors' costs, the methods to be used shall be those used for the Contractor's costs, except that the term "Subcontractor" shall replace the term "Contractor," context permitting.

Changes in Contract Amount for extensions in Contract Time shall exclude costs that are unaffected or do not relate to the extension in Contract Time, such as: (a) operating costs of construction equipment assigned to the Work on a continuing basis, (b) operating costs and owned/rental costs of construction equipment (crane used for specific lifts, concrete pump used for specific pours, etc.), and (c) fully paid site facilities, tools, etc.

The value of any Work covered by a Change Order or of any claim for an increase or decrease in the Contract Amount where the Work involved is covered by unit prices contained in the Contract Documents shall be determined by application of unit prices to the quantities of the items involved. If the quantities originally contemplated are so changed in a proposed Change Order, that application of the Unit Prices to the quantities proposed will cause substantial inequity to the City or the Contractor, the applicable unit price(s) shall be equitably adjusted by mutual agreement.

If the value of work covered by a Change Order cannot be established or mutually agreed to utilizing previously established unit rates, the value shall be determined by the City on the basis of an estimate of the out-of-pocket cost and percentages that are acceptable to the City for overhead and profit. The out-of-pocket cost shall only include those direct costs which are needed to perform the work such as labor (including payroll taxes, fringe benefits, labor burden and workers' insurance), materials, equipment, and other incidental out-of-pocket construction costs directly involved in the work, including but not limited to small tools, expendables and material costs but shall not include project management or project supervisory costs unless the Change Order includes an increase in the Contract time.

In such case, the Contractor will submit in the form prescribed by the City an itemized cost breakdown together with supporting data.

The amount of credit to be allowed by the Contractor to the City for any such change which results in a net decrease in cost, will be the amount of the actual net decrease as determined by the City. When both additions and credits are involved in any one change, the combined overhead and profit shall be figured on

the basis of the net increase, if any.

To be eligible for consideration, the Contractor's written claim for a change in the Contract price, including claim(s) from sub-contractors, shall include an itemized cost breakdown with supporting data as described below:

- A. For labor: Provide written documentation from the Contractor and Subcontractors or others as appropriate in the form of a detailed breakdown by each labor classification involved indicating the number of hours of Work involved and the hourly payroll rate applicable to each to substantiate the basis and amount of the direct labor cost. The direct labor cost may be increased to provide an allowance for indirect payroll costs (labor burden), such as payroll taxes, fringe benefits, and workers insurance after all premium discounts, rebates and other appropriate reductions have been taken.
- B. For material, supplies, equipment, furnishings, etc., to be installed or included in the Work: Provide written documentation from the Contractor and Subcontractors, suppliers, etc., to substantiate the basis and amount of the various cost items involved. Material costs shall reflect the Contractor's reasonably anticipated net actual cost after consideration of trade discounts and volume rebates.
- C. For construction equipment: Provide written documentation in the form of a detailed breakdown by each construction equipment category, indicating the applicable unit rates (i.e., dollar amount per hour, dollar amount per day etc.,) and the number of hours, days, etc. to substantiate the basis and amount of the construction equipment out-of-pocket costs.

CHANGE OF CONTRACT TIME

The Contract Time may only be changed by written Change Order. Any claim for an extension in the Contract Time shall be in writing and include an analysis of the Progress Schedule as further described in the Specifications, and shall be delivered to the City Manager or designee within fifteen (15) business days of the occurrence of the event giving rise to the claim. All claims for adjustment in the Contract Time shall be determined by the City Manager or designee. Any change in the Contract Time resulting from any such claim shall be incorporated in a Change Order. The Contract Time may be extended for an amount equal to time lost due to unforeseeable causes beyond the control of the Contractor (and his Subcontractors and Suppliers) if he makes a claim therefrom. Such delays shall include, but not be restricted to, acts or neglect by any separate Contractor employed by the City; fires; floods; labor disputes; epidemics; or acts of God.

All time limits stated in the Contract Documents are of the essence to the Contract. The stated time limits are agreed to be adequate to complete the work, including the procurement, manufacture and delivery of all material and equipment required, and account for any and all potential impact, delays, disruptions and costs that may be expected.

CITY'S RIGHT TO DIRECT PURCHASE

The City has reserved the right to purchase certain items and materials for this project directly in an effort to save applicable sales tax in compliance with Florida Law.

The City will issue purchase orders directly to the vendors supplying the equipment being directly purchased by the City for this project. Each Purchase Order will be accompanied by the City's Certificate of Exemption and a Certificate of Entitlement. All direct purchase vendor invoices will be issued to the City of St. Pete Beach and the City will issue payment to each direct purchase vendor from City funds. The City will take title to the equipment at time of delivery from the vendor and will issue a separate Certificate of

Entitlement for each purchase order.

The Contractor shall assist the City with receipt of materials furnished by the City in accordance with these Special Provisions including, but not limited to, verifying correct quantities, verifying documents of orders in a timely manner, providing and obtaining all warranties and guarantees required by the Contract Documents, assist with inspection of the goods at the time of delivery and notify the City immediately of any deficiencies noted. It is understood that the owner assumes the risk of damage or loss during the time that the building materials are physically stored at the job site prior to their installation or incorporation into the project. The Contractor shall coordinate with the City regarding the delivery schedules, sequence of delivery, loading orientation, and other arrangements normally required by the Contractor for the specific material furnished.

As City Furnished Materials are delivered to the job site and accepted by the City, the City shall notify the Contractor who will assist the City to visually inspect all shipments from the suppliers. The City will approve the vendor's invoice for material delivered upon adequate inspection and recommendation of the Contractor. The City shall assure that each delivery of City Furnished Materials is accompanied by documentation adequate to identify the Purchase Order against which the purchase is made and Contract Documents including but not limited to Contract, Plans, Specifications, and approved Shop Drawings. This documentation may consist of a delivery ticket, bill of lading and an invoice from the supplier conforming to the Purchase Order together with such additional information as the City may deem necessary.

PAYMENTS FOR WORK COMPLETED

Partial payments will be made as the work progresses at the end of each calendar month, or as soon thereafter as practicable on estimates made by the City Manager or designee and as approved by the City, provided that the Contractor is performing the overall job in a diligent manner. In making partial payments, there shall be retained ten percent (10%) on the amount of each estimate until final completion and acceptance of all work covered by the Contract. Upon completion and acceptance of the work, the City Manager or designee shall issue a certificate that the work has been completed and accepted by them under the conditions of the Contract and shall make and approve the final estimate of the work. The entire balance found to be due the Contractor, including that retained by the City, should be paid to the Contractor. Such payment shall be conditioned, however, upon the submission by the Contractor of evidence satisfactory to the City that all claims for labor, material, and any other outstanding indebtedness in connection with the Contract have been paid. Such payment shall also be conditioned upon approval and acceptance of the construction and improvements by the City.

If after the work has been substantially completed, full completion thereof is materially delayed through no fault of the Contractor and the City Manager or designee so certifies, the City shall upon the Certificate of the City Manager or designee, and without terminating the Contract make payment for the balance due for that portion of the work fully completed and accepted. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claim. If such delay occurs and payment is made under this clause, the Contractor shall nevertheless be prepared to complete the work in a timely manner upon the remedy or removal of such delay, and shall be bound under this Contract for the completion of such work unless this Contract is otherwise terminated.

PAYMENTS WITHHELD

The City Manager or designee may withhold or on account of subsequently discovered evidence, nullify the whole or part of any estimate to such extent as may be necessary to protect the City from loss on account of:

- a) Defective work not remedied
- b) Claims and/or liens filed or reasonable evidence indicating probable filing of claims
- c) Failure of the Contractor to make payments properly to Subcontractors, for material, or labor
- d) A reasonable doubt that the Contract can be completed for the balance then unpaid
- e) Damage to another Contractor
- f) Failure of the Contractor to keep their work progressing in accordance with their time schedule

FINAL PAYMENTS

Upon the completion and acceptance of the work, the City Manager or designee shall issue a certificate that designates that the whole work provided for in this Contract has been completed and accepted by him under the conditions and the terms thereof and shall make the final estimate of the work. After issuance of the certificate, the entire balance found to be due the Contractor, including said retained percentage by the City in accordance with existing state laws as may be retained lawfully by said City, shall pay excepting such sums to the Contractor.

Before the approval of the final payment, the Contractor shall submit evidence satisfactory to the City that states that all payrolls, materials, bills and outstanding indebtedness in connection with this Contract have been paid.

LIENS

If at any time there shall be evidence of any lien or claim for which the City might become liable and which is chargeable to the Contractor, the City shall have the right to retain out of any payment then due or thereafter to become due, an amount sufficient for complete indemnification against such lien or claim. In the event the City has already paid to the Contractor all sums due under this contract or the balance remaining unpaid is insufficient to protect the City, the Contractor and his Surety shall be liable to the City for any loss so sustained.

RESPONSIBILITY OF THE CITY MANAGER OR DESIGNEE

The term "City Manager or designee" wherever used in the Contract shall be the City of St. Pete Beach or its duly authorized representative. Notices of any change in the City Manager or designee shall be given in writing by the City to the Contractor. The City Manager or designee shall have full authority to interpret the Plans and Specifications and shall determine the amount, quality, and acceptance of the work and supplies to be paid for under the Contract and every question relative to the fulfillment of the terms and provisions therein. It shall be the duty of the City Manager or designee to enforce the Plans and Specifications in a fair and unbiased manner. If a variation from any requirements is allowed the City Manager or designee shall grant the same in writing with the reasons for his action outlined, and such action will not invalidate or change the Contract in any other manner.

INTENT OF PLANS AND SPECIFICATIONS

The Contractor shall keep on the job a copy of the Plans and Specifications and shall at any time give the City Manager or designee access thereto. Anything mentioned in the Specifications and not shown on the Plans or shown on the Plans and not mentioned in the Specifications, shall be of like effect as if shown or mentioned in both. The Contractor shall not take advantage of any errors, discrepancies or omissions that

may exist in the Plans and Specifications but shall immediately call them to the attention of the City Manager or designee whose interpretation or correction thereof shall be conclusive. Should a conflict occur between the General Specifications and any Supplemental Specifications and/or Plans, the latter shall govern.

LICENSES AND PERMITS

The Contractor shall obtain and pay for all necessary City licenses and work permits and shall faithfully comply with all laws, ordinances and regulations, (Federal, State or local) which may be applicable to the operations to be conducted hereunder, except for those permits obtained by the City. Notwithstanding the provisions above, the contractor is responsible for non-compliance of all permit requirements, including all fines resulting from Contractor's non-compliance of said requirements.

Chapter II, Section II-4, "Registration of Licenses Obtained From Other Municipalities:" "Persons, partnerships, corporations, or other business entities doing business with the City who are not required to obtain a City occupational license, but who must have either a State or County or Municipal occupational license from another municipality, shall register such occupational license with St. Pete Beach Community Development Department. The City may charge a fee for such registration." The Contractor shall be responsible for obtaining all City, County, State and Federal permits required by those government agencies and must provide documentation of receipt of those permits prior to project commencement. This shall include a notice to commence work letter and the applicable fee, if required. Any sub-contractor hired by the contractor awarded the project, MUST also register their license with the City.

SUPERINTENDENCE

The Contractor shall constantly superintend all the work embraced in this Contract in person or by a responsible agent who shall have in writing, full authority to act for them and to carry out all the instructions given by the City Manager or designee.

LABOR PROVISIONS

The Contractor and his Subcontractors shall discharge, whenever ordered to do so by the City Manager or designee, any employee who is disorderly or whose conduct in the opinion of the City Manager or designee is detrimental to the prosecution of the work. No person whose age or physical condition is such as to make this employment dangerous to his/her health and safety or to the health and safety of others shall be employed on the work, and in no event shall any persons under the age of sixteen (16) years be employed.

INSURANCE

The Contractor shall procure and maintain at his/her own expense, during the life of the Contract, liability insurance as hereinafter specified. All such insurance shall be subject to the approval of the City for adequacy of protection and shall include a provision preventing cancellation without twenty (20) business days prior notice to the City in writing. The City shall be included as an additional insured on all liability insurance. The liability insurance required is as follows: Contractor's General Public Liability and Property Damage Insurance issued to the Contractor and protecting the Contractor from all claims for personal injury, including death, and all claims for destruction of or damage to property, arising out of or in connection with any operations under this Contract, whether such operations be by the Contractor or by any Subcontractor hired by the Contractor or anyone directly or indirectly employed by the Contractor or hired by the Contractor.

The successful Contractor shall supply and maintain insurance which defends, indemnifies and holds

harmless the City of St. Pete Beach, its officers, employees and agents from and against any and all liability, damage claims, demands, costs, judgments, fees, attorney's fees or loss arising directly out of acts or omissions hereunder by the Contractor or third party under the direction or control of the Contractor. Such general and excess liability coverage shall be primary to any other coverage carried by the City of St Pete Beach. Contractor must furnish the City with Certificate of Insurance prior to commencement of work. An approved Certificate of Insurance furnished by the Contractor's carrier to guarantee the Contractor being insured with the City of St Pete Beach must be named as a certificate holder for this contract. They shall not proceed until they have received such stakes and instructions as may be necessary as the work progresses. The work shall be done in strict conformity with such stakes and instructions. The Contractor shall carefully preserve benchmarks, reference points and stakes, and in case of willful or careless destruction, they will be charged with the resulting expense and shall be responsible for any mistakes that may be caused by their unnecessary loss or disturbance.

Any failure by the Contractor to acquaint themselves with any aspect of the work or with any of the applicable conditions shall not relieve the Contractor from the responsibility to successfully perform the work under the Contract Documents, nor shall it be considered the basis for any claim for additional time or compensation.

UTILITIES

The Contractor shall anticipate all underground obstructions such as water lines, gas lines, sewer lines, utility lines, or any other public or private facilities and debris. In all cases where existing utility lines may be interfered with by the work, the Contractor shall give a minimum of thirty-six (36) hours' notice to the owners of such utilities, to permit them to relocate the lines prior to construction. No extra payment shall

be allowed for the removal, replacement, repair or possible increased cost caused by underground obstructions. The location of existing structures and utilities provided in the plans are approximate only. Any damage to existing structures to remain or work of any kind shall be repaired or restored promptly by, and at the expense of the Contractor.

All debris generated by the Contractor will be removed before leaving the area. All areas will be raked to remove smaller debris. All surrounding sidewalks, parking lots and roadways will be cleared of any dust or debris generated by the Contractor. In the event of their failure to do so, the City at the expense of the Contractor may do the same, and their Surety shall be responsible.

DEFECTIVE WORK OR MATERIAL

The Contractor shall promptly remove from the premises all work and materials condemned by the City Manager or designee as failing to conform to the Contract, whether incorporated or not, and the Contractor shall promptly replace and re-execute his own work in accordance with the Contract and without expense to the City and shall bear the expense of making good all work of other Contractors destroyed or damaged by such removal or replacement.

If the Contractor does not remove such condemned work or materials within a reasonable time after notice, the City may remove them and store the materials at the expense of the Contractor. If the Contractor does not pay the expense of such removal within ten (10) business days' time thereafter, the City may, upon thirty (30) business days written notice sell such materials at auction or at private sale and shall account for the net proceeds thereof after deducting all the costs and expenses that should have been borne by the Contractor.

DISPUTE RESOLUTION

The Contract shall be construed under Florida law. The parties agree that all controversies, claims and other matters in question between the parties arising out of or relating to this Contract or its breach shall be resolved through mediation. Upon notice of any party to the Contract of a dispute, question or controversy, the parties shall agree to the appointment of a qualified mediator. A qualified mediator is a person who has received at least forty (40) hours of mediation training and has actual experience as a mediator in resolving contract disputes. If the dispute, question or controversy is not resolved through mediation within sixty (60) business days of a notice of the dispute between the parties, the City reserves the right to seek resolution through court action.

INDEMNIFICATION

In consideration of the payment of ten dollars (\$10.00) as part of the above purchase price, Contractor shall indemnify, defend, and hold harmless the City, its officers and employees, from liabilities, damages, losses and costs, including but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the responding firm and any persons employed or utilized by the responding firm in the performance of the Contract.

GENERAL WARRANTY

Neither the final certificate nor any provision in the Contract Documents nor partial or entire occupancy of the premises by the City shall constitute an acceptance of work not done in accordance with the Contract Documents or relieve the Contractor of liability in respect to any express warranties or responsibility for faulty materials or workmanship. The Contractor shall remedy any defects in the work and pay for any damage to other work resulting therefrom that shall appear within a period of eighteen (18) months from the date of final acceptance of the work, unless a longer period is specified. The City shall give notice of observed defects with reasonable promptness.

LAND OF CITY, USE OF, BY CONTRACTOR

The City shall provide the land upon which the work under this Contract is to be done, and will, so far as is convenient, permit the Contractor to use as much of the land as is required for the erection of temporary construction facilities and storage of materials, together with the right of access to same, but beyond this, the Contractor shall provide, at his/her cost and expense, any additional land required. It will be the responsibility of the Contractor to repair or restore to the satisfaction of the City, at their own expense, any damage to land used for the above stated activities or any other activities approved by the City.

OTHER WORK

Wherever work being done by the City or by other Contractors is contiguous to work covered by this Contract, the respective rights of the various interests involved shall be established by the City Manager or designee to secure the completion of the various portions of the work in general harmony.

OTHER CONTRACTS

The City may award other Contracts. The Contractor shall fully cooperate with such other Contractors and carefully fit his/her own work to that provided under other Contracts, as may be with the performance of work by any other Contractor or City.

DELAYS AND EXTENSION OF TIME

If the Contractor should be delayed at any time in the progress of the work by an act or neglect of the City or the City Manager or designee, or of any employee of either, or by any separate Contractor employed by the City, or by changes ordered in the work, or by strike, lockouts, fire, unusual delay in transportation, unavoidable casualties, or any cases beyond the Contractor's control, or by delay authorized by the City Manager or designee, or by any cause which the City Manager or designee shall decide to justify the delay, then the time of completion shall be extended for such reasonable time as the City Manager or designee may decide. No such extension shall be made for a delay that occurs more than five (5) business days before a claim is made in writing to the City Manager or designee. In the case of a continued cause of delay, only one (1) claim is necessary. This section does not exclude the recovery of damages for delay by either party under other provisions in the Contract Documents.

CITY'S RIGHT TO TAKE OVER THE WORK

If the Contractor shall be adjudged bankrupt, or if they should make a general assignment for the benefit of its creditors, or if a receiver should be appointed to take over their affairs, or if they should fail to prosecute their work with due diligence and carry the work forward in accordance with its' work schedule and the time limits set forth in the Contract Documents, or if they should fail to substantially perform one or more of the provisions of the Contact Documents to be performed by them, the City may serve written notice on the Contractor and the Surety on its' performance bond, stating the City's intention to exercise one of the remedies hereinafter set forth and the grounds upon which the City bases its right to exercise such remedy. In any event, unless the matter complained of is satisfactorily cleared within ten (10) business days after the service of such notice, the City may, without prejudice to any other right or remedy exercise one of such remedies at once; having first obtained a certificate from the City Manager or designee that such sufficient cause exists to justify such action.

The City may terminate the services of the Contractor, which termination shall take effect immediately upon service of notice thereof on the Contractor and their Surety, whereupon the Surety shall have the right to take over and perform the Contract. If the Surety does not commence performance of the Contract within ten (10) days after service of the notice of termination, the City may itself take over the work, take possession of and use all materials, tools, equipment, and appliances on the premises and prosecute the work to completion by such means as it shall deem best. In the event of such termination of their service, the Contractor shall not be entitled to any further payment under their Contract until the work is completed and accepted. If the City takes over the work and the unpaid Contract balance exceeds the cost of completing the work, including compensation for damages or expenses incurred by the City through the default of the Contractor, the excess unpaid Contract balance shall be paid to the Contractor. If the City takes over the work and the unpaid Contract balance does not exceed the cost of completing the work, including compensation for damages or expenses incurred by the City through the default of the Contractor, the Contractor and his Surety shall pay the difference to the City. The City Manager or designee shall certify such cost, expenses, and damages.

The City may take control of the work and either make good the deficiencies of the Contractor itself or direct the activities of the Contractor in doing so, employing such additional help as the City deems advisable. In such event, the City shall be entitled to collect from the Contractor and his Surety, or to deduct from any payment then or thereafter due the Contractor, the costs incurred by it through the default of the Contractor, provided the City Manager or designee approves the amount thus charged to the Contractor.

The City may require the Surety on the Contractor's bond to take control of the work at once and see to it that all deficiencies of the Contractor are made good with due diligence. As between the City and the Surety,

the entire cost of making good such deficiencies shall be borne by the Surety. If the Surety takes over the work, either upon termination of the services of the Contractor or upon instructions from the City to do so, the provisions of the Contract Documents shall govern in respect to the work done by the Surety, the Surety being substituted for the Contractor as to such provisions, including provisions as to the payment for the work and provisions of this section as to the right of the City to do the work itself or to take control of the work.

RIGHT OF OCCUPANCY

The City shall have the right, if necessary, to take possession of and to use any completed or partially completed portions of the work, if such use be approved by the City Manager or designee even if the time for completing the entire work or such portions of the work has not expired and even if the work has not been finally accepted. Such possession and use shall not constitute an acceptance of such possession and use if it materially interferes with the Contractor's operations. The City shall also have the right to enter the premises with the Contractor for the purpose of doing work not covered by its Contract.

ACCEPTANCE

Final inspection and acceptance of the work shall be made for the City by the City Manager or designee. Such inspection shall be made as soon as practical after the Contractor has notified the City in writing that the work is ready for such inspection.

WAIVER

It is expressly understood and agreed that any waiver granted by the City Manager or designee of any term, provision, or covenants of the Contract shall not constitute a precedent or breach of the same or any other terms, provisions, or covenants of the Contract. Neither the acceptance of the work by the City nor the payment of all or any part of the sum due the Contractor hereunder shall constitute a waiver by the City of any claim which the City may have against the Contractor or Surety under this Contract or otherwise.

INSPECTION

The City Manager or designee and his representative shall, at all times, have access to the work during its construction and shall be furnished with every reasonable facility for ascertaining that the stock and materials used and employed, and the workmanship, are in accordance with the requirements and intentions of the Plans. All work done and all materials furnished shall be subject to their inspection and approval by the City Manager or his designee. If any work should be covered up without approval or consent of City Manager or designee, it must, if required by the City Manager or designee, be uncovered for examination at the Contractor's expense.

The City Manager or designee may order re-examination of questioned work and if so ordered, the Contractor must uncover the work. If such work were found in accordance with the Contract Documents, the City shall pay the cost of re-examination and replacement. If such work be found not in accordance with the Contract Documents, the Contractor shall pay such costs unless they show that the defect in the work was caused by another Contractor, and in that event, the City shall pay such cost.

The inspection of the work shall not relieve the Contractor of any of their obligations to fulfill their Contract as prescribed, and defective work shall be made good and unsuitable materials shall be rejected, notwithstanding that such defective work and materials have been previously overlooked and accepted on estimates for payment. All work shall be tested to the satisfaction of the City Manager or designee before acceptance.

BID REVIEW AND CONTRACT AWARD

Failure to submit all documents requested at the time of bid may deem the Contractor's bid ineligible for award. The City of St. Pete Beach reserves the right to reject any or all bids or parts of bids or accept any bid or part thereof deemed to be in the best interests to the City of St. Pete Beach. The City shall be the sole final judge of qualifications of the bidder to perform service and reserves the exclusive right to accept or reject any bids as it deems to be in the best interests of the City. The City may waive any informality.

Contractor may be liable for all costs associated with the City securing the same services, inclusive, but not limited to, higher costs for the same services and rebidding costs (if necessary). Any challenge to termination under this provision must be filed in the Circuit Court no later than 20 calendar days after the date of termination.  - b) The City wishes to have two different post lengths - 13', 15'. The 13' and 15' posts will be direct buried.
 - c) Post length shall allow for 80" (see price schedule for all post lengths) from concrete foundation mounting to bottom of regulatory sign frame. The concrete foundation shall rise out of the ground and have an elevation of no less than 2.5" from the natural ground surface and no more than 3.5" from ground surface. The sign frame shall be 1" thick around the entire sign. Therefore, the sign, as mounted, shall have between 83.5" and 84.5" between natural ground surface and the bottom of the sign.
 - d) Street posts shall be fluted and made of extruded aluminum.
 - e) Technical requirements must be verified by City with submittal of cut sheets and/or technical specifications. In the best interest of the City, the City reserves the right to consider alternative design options, dimensions, fabrication methods, assembly methods or any other variations as proposed by the manufacturer. Alternative design options must be signed and sealed by an engineer to meet 180 MPH wind speeds.
- 2) Horizontal clearances and offsets from edge of pavement, sidewalks, crosswalks, etc. shall meet criteria set forth by M.U.T.C.D. In accordance with Florida law, the Contractor shall call Florida Sunshine One to locate utilities prior to digging. Prior to installation, the Contractor shall identify the actual field location for each sign with the City's designated inspector. No sign shall be erected without the prior approval of the City inspector. Decorative Components: Sign Frame, Finial, Base, Scroll, Street Name flags
 - a) Sign Frame & Backing: The sign frame shall be made from a single piece of cast aluminum and be bolted to an aluminum mounting bracket that is welded to the fluted aluminum post. An example of the sign frame backing is shown in Detail #7.
 - b) Finial: Decorative finial caps shall be cast aluminum, be an "Acorn" design, and be made for and welded to the 4" fluted aluminum post. Please see Detail #8.
 - c) Base/Bell: Decorative base shall be cast aluminum and welded to decorative post. Style shall match the attached decorative base option selected and final approval shall be coordinated with the City.
 - d) Scroll: Decorative scrolls shall be one-piece cast aluminum and welded to each decorative street name flag (frames) and decorative post. Style shall match the attached decorative scroll options. Please see Details #10, #11, and #12.
 - e) Street Name Flags (also called Frames and/or Paddle): The sign flag shall be made from a single piece of cast aluminum and be welded to the fluted aluminum post and scroll. The custom street name flags (frames) shall match the style of the proof from Lake Shore Industries. To be included in this item are new street name signs. Two per flag.
 - f) Prior to any fabrication, shop drawings shall be delivered to the City for each component in #1 and #2 above. The City shall review each shop drawing and provide its approval or disapproval.
- 3) Welding
 - a) Contractor shall provide warranty on all welds. Duration of warranty shall be noted in the bid tabulation.
 - b) Except for the sign frame and backing being bolted onto a mounting bracket, all decorative components shall be fully welded to the post and not mechanically fastened. Welds shall be continuous, without spacing. Street name sign flag frames must also be bolted to the pole.

- c) All welds to use Alcotech. Alloy 4043 filling wire (or equivalent), ISO designation: Al515 ANSA/AWS A.510 (ER&R) AMS 4190. All welds to be properly filed, grounded, cleaned and prepped.

4) Coating and Color

Contractor shall provide warranty period for color coating and gloss. Coating shall be either aluminum powder coating or automotive urethane grade paint priming and finishes.

- a) The powder coating shall adhere to the following standards:

The coating shall be applied in the following stages:

- i) Stage 1 - All products coated shall receive an alkaline cleaner application followed by a freshwater rinse.
- ii) Stage 2 - Phosphoric Acid 4% solution treatment with a fluoride accelerant followed by a reverse osmosis water rinse at ambient temperature. The rinse shall be followed by a high-pressure air spray to remove all moisture from the product.
- iii) Stage 3 - Non-chrome Polymer sealer application.
- iv) Stage 4 - Oven drying.
- v) Stage 5 - Electro-static application of polyester powder in a downdraft spray booth and applied by articulated robot arm sprayer and over sprayed by an application technician. Polyester powder overspray shall be recoverable and reusable.
- vi) Stage 6 - Oven curing to harden powder finish and create final appearance and adhesion to the substrate. Curing shall be in a cooling tunnel to prepare for un-racking.

- b) The paint and primer shall adhere to the following standards:

- i) Stage 1 - Aluminum to be washed, removed of all oils and dirt
- ii) Stage 2 - Aluminum to be primed with two-part self-etching primer
- iii) Stage 3 - Finish coat shall be two part-part automotive urethane and have no imperfections

- c) The finish-coat of the entire assembly shall be high gloss black.

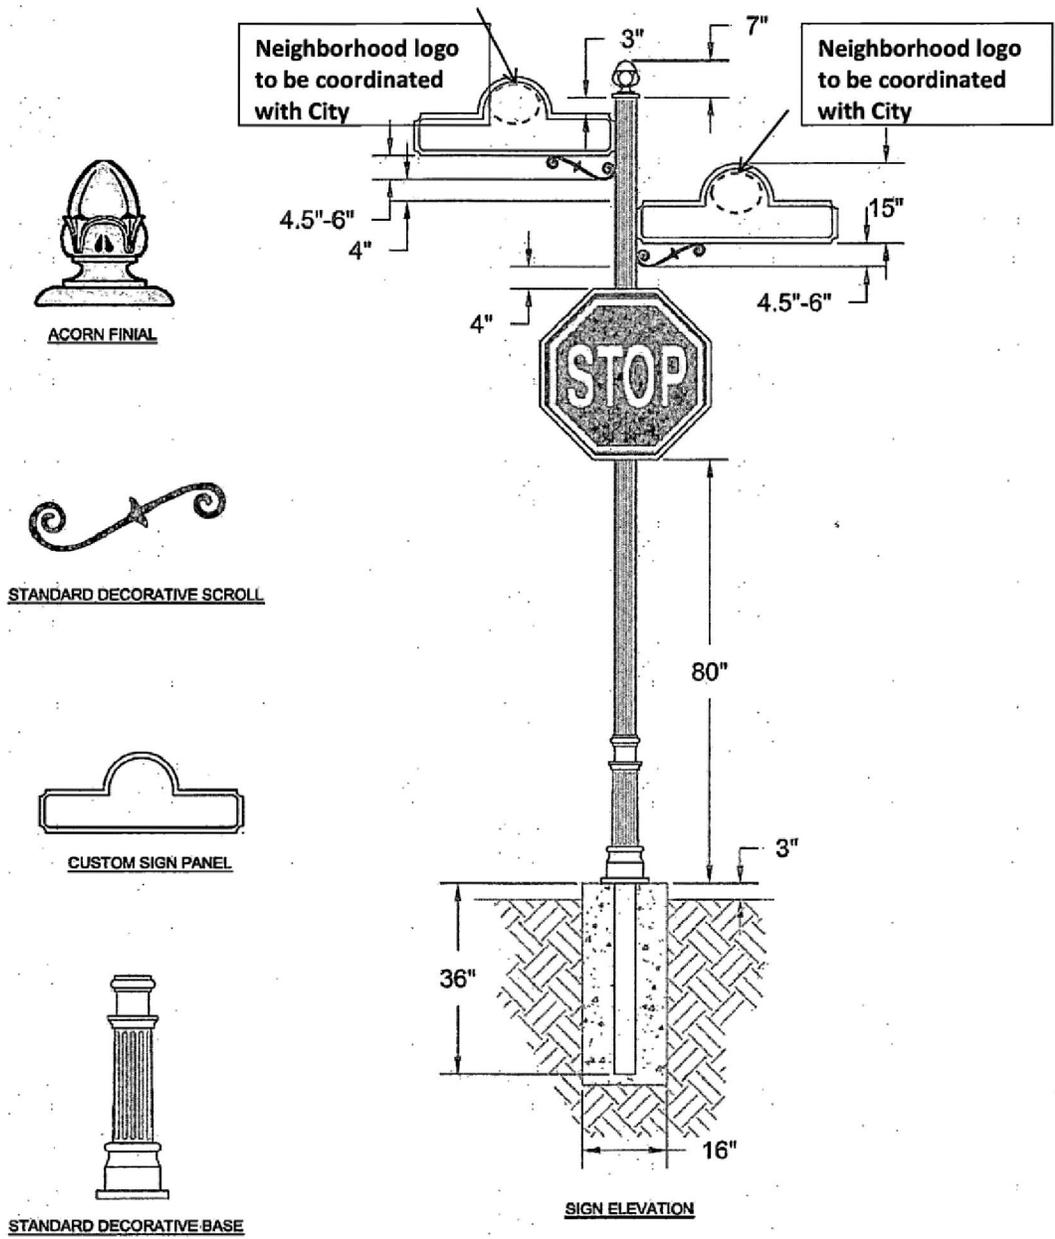

5) Installation and Removal

- a) All signs shall include installation in concrete foundations as specified in Detail #1. All signs will be located within the City limits and locations shall be approved by the City prior to installation.
- b) Concrete foundations shall be a minimum of sixteen inches in diameter for standard base and 36-inches deep regardless of base option, unless otherwise approved by the City. For any decorative base option, the City selects, the concrete shall extend a minimum 3.5 inches outside the diameter of the selected base. Alternative size dimensions shall require the Contractor to provide engineering calculations showing the alternative base meets applicable wind loading forces and break-a-way design standards. This is to verify posts will be direct bury as specified.
- c) The City shall have the option of directing the contractor of either bolting the decorative post to a prefabricated concrete base or extending the signpost into the foundation forms and pouring the concrete base around the post. Both options require the bottom of the concrete base to be raised between 2.5 and 3.5 inches from existing ground surface. This is intended to protect the signpost from weed-wackers and lawn mowers.
- d) The contractor may be required to remove existing damaged or old signs and relocate them to the City stock yard or as directed by City staff. It may also be a requirement to remove old bases and backfill with suitable soils. Contractor will be responsible for removal and disposal of existing concrete base cores.
