## **-DUKE ENERGY POTENTIAL CHANGE IN BILLING DATE FOR SOME DUKE ENERGY CUSTOMERS THIS MESSAGE IS BEING SENT ON BEHALF OF GOVERNMENT & COMMUNITY RELATIONS MANAGER, MELISSA SEIXAS -**

As part of an on-going review of our electric delivery system and to further improve efficiency, it is necessary for us to make changes in the dates we currently read customer meters in a given month. Beginning in late July, we will change the meter reading and billing schedule for approximately 650,000 meters in Pinellas and Pasco counties. The change will occur over four months and the entire project should be completed by mid-November 2014. The upcoming change to customer meter readings will impact the date some customers receive their bills and, subsequently, the due date. Some customers may receive a bill covering a slightly extended period which could result in a higher than normal bill. After this one-time schedule adjustment, billing statements will be issued approximately every 30 days as they are today. Customers will receive letters in advance of the project, but recognize you might receive questions from your constituents as well. Duke Energy offers a number of payment programs to assist customers with their monthly bills and we are committed to working with them through this billing change as well. We are encouraging customers who need assistance with payment arrangements or who would like to learn about other programs to visit [www.duke-energy.com/billingupdates](http://www.duke-energy.com/billingupdates) or call our customer service center at 1-800-700-8744.
