

Street Sweeping

The City contracts with USA Services of Florida to provide street sweeping services to all City owned roads. Street sweeping is an essential service to give our community a clean and amiable appearance. Street sweeping also prevents debris from entering the stormwater drainage system which helps comply with the National Pollution Discharge Elimination Systems Program. Presently there are 70 curb miles that are being cleaned monthly.

Sweeping Schedule

Second Wednesday and Thursday of Each Month
North End of the City on Wednesday
South End on Thursday
